Education

National University of Computer and Emerging Sciences

Aug 2021-Aug 2025

Bachelor of Science in Computer Science (CGPA: 3.73 / 4.00)

Lahore, Pakistan

- **Relevant Coursework:** Programming Fundamentals, Data Structures and Algorithms (C++), Software Design, Operating Systems, Computer Networks, Generative AI

University of Wisconsin-La Crosse

Jan 2024-May 2024

Bachelor of Science in Computer Science-Exchange Semester (CGPA: 3.75 / 4.00)

La Crosse, USA

- **Relevant Coursework:** Software Engineering, Information Security

Experience

Systems Limited

July 2026–Present

Junior Consultant

Lahore, Pakistan

- Promoted to Junior Consultant in recognition of technical contributions and successful delivery of AI-powered software solutions.
- Take increased ownership of designing, developing, and optimizing scalable software applications, backend services, and system architectures.
- Lead client onboarding activities by gathering business and technical requirements and translating them into practical software solutions aligned with client objectives.
- Collaborate with stakeholders and technical teams to analyze requirements, contribute to solution design, and support the development of maintainable and scalable systems.

Systems Limited

July 2025-June2026

Associate Consultant

Lahore, Pakistan

- Developed and maintained backend services using Python and FastAPI, building RESTful APIs to support scalable AI-powered software applications.
- Designed and implemented RAG-based software solutions using LangChain, ChromaDB, and LLM APIs to enable intelligent document retrieval and question-answering capabilities.
- Built responsive full-stack applications using Next.js, React, TypeScript, JavaScript, HTML, and CSS, translating functional requirements into production-ready software features.
- Participated in the complete software development lifecycle, including requirements analysis, development, debugging, testing, code reviews, and technical documentation.

Certifications

- **IBM RAG and Agentic AI Professional Certificate** – IBM
Completed comprehensive training on Retrieval-Augmented Generation (RAG) and AI agents for building intelligent AI-powered applications.

Technical Skills

Programming Languages: Python, C++, C, C#, Javascript,TypeScript

Backend & Web Services: Python, FastAPI, Flask, RESTful APIs, API Integration, Backend Development

Software Engineering: Software Design, Object-Oriented Programming, Debugging, Testing, Code Reviews, Performance Optimization, Maintainable Code, System Architecture

Frontend: React.js, Next.js, HTML, CSS, JavaScript, TypeScript

AI & Data Technologies: LangChain, LangGraph, ChromaDB, OpenAI APIs, TensorFlow, PyTorch, Deep Learning, Data Analysis

Professional Skills: Requirements Gathering, Functional Design, Client Interaction, Cross-Functional Collaboration, Technical Documentation, Agile Software Development

Awards/Honours

- Awarded the Global UGRAD Pakistan Exchange Program Scholarship for a semester-long exchange in the USA.
